Description : Humorous cartoons focus on words and their meanings. 300 cartoons present visual puns that serve as memory aids related to the words meaning. Cartoons come with target word, definition, and sample sentences that show how the word is used. To reinforce memory retention, SAT-style sentence completion exercises follow every set of 12 cartoons.

"Although the use of cartoons to teach vocabulary is not an original concept, this workbook is set apart by its addition of the sound link and its use of cartoons that are sophisticated and entertaining, often featuring puns to reinforce a word's meaning. The sentence completion exercises in the unit reviews make it a valuable tool for preparing the reader for the SAT. This workbook would be a good choice especially for students who are visual learners and for high school libraries.--Christine Sanderson, VOYA, April 2005From the Inside Flap(back cover) 300 cartoons help you focus on words and meanings that you'll encounter when you take
