Description : Now fully updated and completely revised for the new SAT This book brings together everything you need to know for the SAT math section. Unlike most other test prep books, this one is truly geared towards the student aiming for the perfect score. It leaves no stones unturned. Inside, You'll Find: Clear explanations of the tested math concepts, from the simplest to the most obscure Hundreds of examples to illustrate all the question types and the different ways they can show up Over 500 practice questions and explanations to help you master each topic The most common mistakes students make (so you dont) This is the most thorough SAT prep out there. For more sample chapters and information, check out <http://thecollegepanda.com/books>

About the Author Nielson Phu is a teacher, author, and SAT perfect scorer. Since graduating from NYU, he has helped hundreds of students throughout Boston and Hong Kong improve their own scores with a unique approach that goes far beyond the basic strategies found in typical test prep material. Although he is now an engineer, he continues to teach through The College Panda, an in-depth blog with more than 20,000 readers

each month (<http://thecollegepanda.com>)
