Description : U.S. Citizen, Yes is a program designed to prepare adult students of citizenship and English as a Second Language for the naturalization process. This lively book consists of ten chapters that present the material students are required to learn to become citizens of the United States as well as personal stories by new citizens. Activities build on students' life skills and knowledge by encouraging learners to work together comparing U.S. political systems and historical events with those from their native countries. A special visual-rich section for low-beginners, a board game at the end of every unit, and an actual citizenship application are all unique features of this program.
